Dear Parent/Carer,

I am writing to make you aware of serious safeguarding concerns that have recently been highlighted about the online platform Roblox. National agencies have advised schools that children can be exposed to a number of significant risks while using the app, including:

- contact from unknown individuals through unfiltered private messaging
- access to inappropriate or unsafe content
- entry into online spaces that are not suitable for children

Given these concerns, we strongly encourage all parents to check whether their child is using Roblox at home and to review their privacy settings, chat permissions, and the types of games or “worlds” they are accessing. Regular supervision of online activity is an essential part of keeping children safe.

If you have any questions or would like further guidance about online safety, please contact the school and we will be happy to support.

Thank you for your vigilance and continued support in safeguarding our learners.

Yours faithfully,

Scott Reasons

Head of School Secondary
